EXPERIENCE

Graduate Research Assistant
UC, San Diego

09/2022 – Present San Diego

UC, San Diego, Department of Neuroscience, **Dr. Bradley Voytek**

- *Developing a novel electrocardiogram (ECG) parameterization toolbox* to enhance the analysis and interpretation of cardiac waveforms.
- *Investigating the physiological relevance and temporal variability of ECG waveform parameters* to enhance diagnostic precision by identifying features associated with cardiac pathologies.
- *Leveraging the ECG toolbox to project a digital twin onto neural recordings* to understand how changes in ECG parameters impact neural signals.

Research Assistant
UC, San Diego Health

08/2020 – 09/2022

UC, San Diego Health, **Dr. Matthew Panizzon**

- First-author publication on sex-specific factors involved in migraine

Research Assistant
UC, Santa Barbara

03/2019 – 06/2020

UC, Santa Barbara, **Dr. Emily Goard-Jacobs**

- First-author publication on the effect of endogenous hormone fluctuations on the functional connectivity of the cerebellum

Research Assistant
UC, Santa Barbara

09/2018 – 03/2019

UC, Santa Barbara, **Dr. Scott Grafton**

- Cardiac data collection (ECG, ICG and BP)
- Utilized novel moving-ensemble analysis pipeline (MEAP) for preprocessing and analysis of cardiac data
